

Quality Policy of INSS-POL Sp. z o.o.

INSS-POL Sp. z o.o. is a reputable global contractor specializing in process installations and a manufacturer of pressure vessels and other stainless steel structures for a wide range of industrial sectors.

The strategic objective of our business is to deliver products and services that meet customer requirements, as well as all applicable legal, technical, and quality standards, while ensuring reliable and timely execution. Customer satisfaction is our highest priority and the cornerstone of the Company's sustainable growth. We are committed to building long-term relationships based on trust and the shared creation of added value.

In pursuit of our objectives and the fulfillment of the above commitments, we:

- manage the organization through a process-based approach, risk and opportunity assessment, and the implementation of continuous improvement initiatives,
- collaborate with suppliers capable of meeting our quality and delivery requirements, regularly evaluating their performance and fostering long-term partnership relationships,
- continuously improve our processes to enhance efficiency and quality,
- make decisions based on data analysis, audit results, and nonconformity assessments to drive continual improvement,
- develop employee competencies and promote engagement, accountability, and ownership for the quality of executed processes,
- support our customers in implementing modern and innovative solutions,
- leverage advanced technologies to ensure the highest quality of products and services.

The Company's Management is committed to providing active leadership, ensuring the resources necessary to implement this policy, and continually improving the effectiveness of the Quality Management System in accordance with the requirements of ISO 9001:2015.

D. Eng Andrzej Olejnik
Chairman of The Board, General Manager
