

# INSS-POL Sp. z o.o. Quality Policy

INSS-POL Sp. z o.o. is a renowned, globally operating Contractor of stainless steel technological installations in various industries and a supplier of pressure equipment, tanks, silos and stainless steel constructions and structures.

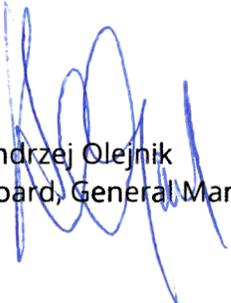

Our strategic objective is to provide products and services in accordance with the quality requirements agreed with our Customers, the applicable legislation and delivery within the agreed deadlines.

The highest priority in our business is the satisfaction and success of our customers, which is also the basis for the success and growth of the Company.

We achieve our goals by:

- working with reliable suppliers who are able to meet our requirements in terms of quality and delivery times for the products and services ordered,
- improving the manufacturing processes of products and services provided in order to meet Customer needs and expectations,
- an appropriate human resources policy - by defining staff competences, powers, responsibilities and opportunities for self-fulfilment and development,
- creatively supporting our Customers in the implementation of innovative solutions,
- obtaining the highest quality products and services by applying the latest technology in all phases of its manufacture.

I undertake to continuously improve the functioning Quality Management System based on ISO 9001:2015 and to meet the applicable requirements.

  
D. Eng Andrzej Olejnik
